

How To Touch A Woman

Learn how to have her in your finger tips.

I am Klana, a mature, sensual woman from Germany, living on Ibiza, Spain, and traveling Europe and the USA. I followed my passion into Life and Sex Coaching and whole body sensuality.

My true love is to teach men how to touch women so they surrender their deepest treasures. Men who touch women with good technique, combined with sincerity and truthfulness, will enjoy deep intimacy and pleasure. As my student, you will practice whole body and intimate touching on me, a compassionate, articulate and sensual woman.

A session with me will enhance:

- Your knowledge of female anatomy and techniques of female arousal
- Your ability to feel and enjoy your own sensation
- Your confidence, erotic communication skills, and ease with a woman.

In our 2,5 - 3 hours together, you will take your loving to the next level. Hands-on practice with me puts you ahead of most men who try to guess what a woman wants. You'll learn a full spectrum of touch sensations, caress vs. massage, presence vs. performance. Time with me is an investment in a lifetime of enhanced pleasure and intimacy.

My fee is EUR 500.
